CORPORATE DESIGN

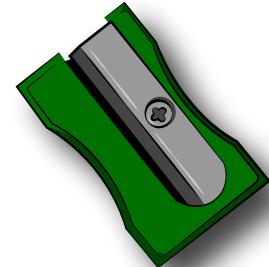

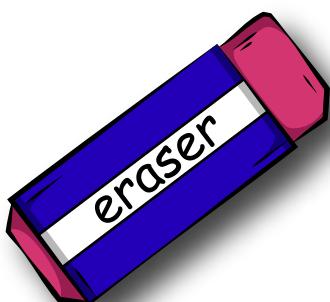

ILLUSTRATIONS

My best illustrations all done on Adobe Illustrator. I tend to do illustrations based on things that I'm a fan off, for example Anime. I would like to make them into posters and print them on T-Shirts, especially the anime illustrations.

T-SHIRT DESIGN

Some T-shirts designs I've been experimenting with. I would like to eventually start a clothing brand focused on making anime merchandise. These designs are from two of my favourite animes, Death Note and attack on titan.

These Designs are in black and white because they're meant to resemble manga panels, but i would like to eventually do designs in colour aswell.

LAYOUT DESIGN

Some designs i was required to do for an assignment in college. I was required to create a newsletter from Tiger Brands from scratch in Adobe Indesign. The article was also written by me

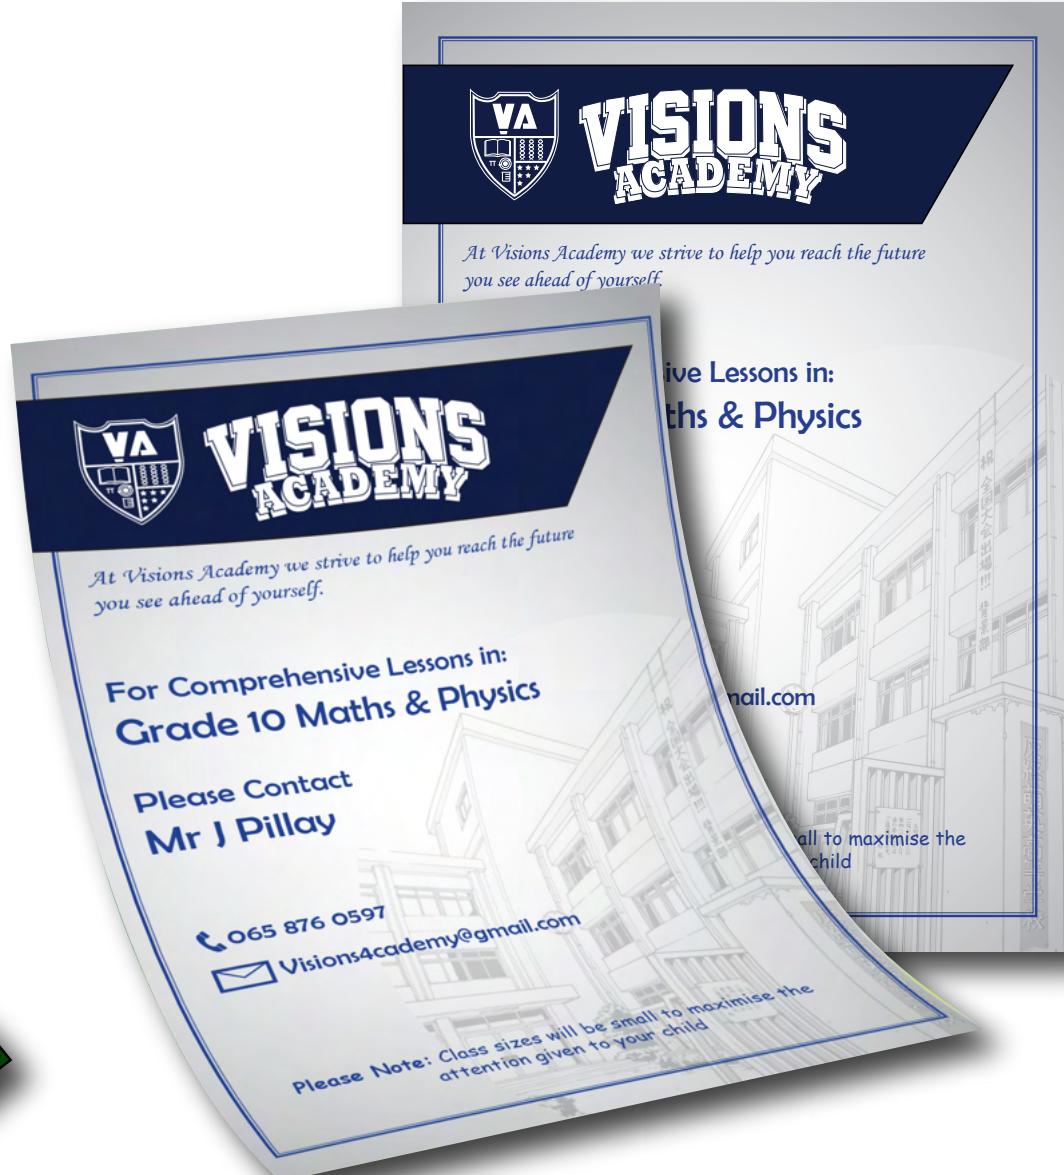

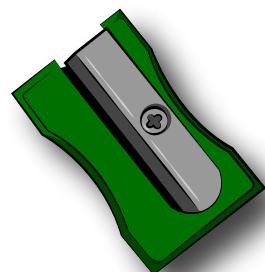

This Magazine article was also an assignment i did for college. I was required to write and design and magazine article and cover fro scratch, about a topic i am passionate about. i made it to resemble an old gaming magazine i used to collect when i was younger, before it got discontinued

FREELANCE WORK

A flyer i designed for an up-and-coming Tuition business called 'Visions Academy' as part of my freelance work. The logo and 'Visions Academy' text were done from scratch.

CORPORATE DESIGN

OMEGA is a brand that creates watches. This project was a class activity where i was given the task of rebranding the company by giving them a new logo, business card, and letterhead.

THANK
YOU!
